Services

The clinic functions as an Urgent Care Clinic, but also does wellness check-ups and physicals for children, (school, sports), and physicals for adults who need them for employment, school, or adoption. Annual women’s exams (with optional labs) are also available.

Testing

In our Lab we can test for the following: Strep, Flu, Mono, RSV, UTI's, Pregnancy, Blood Glucose, Cholesterol Levels, and Hemoglobin.

Ultrasounds

Our physician will do a non-diagnostic ultrasound for confirming pregnancy and determining due dates. Ultrasound can be used for other needs, per physician.

Labs

Labs can be drawn with an order from a physician or nurse practitioner. The Lab Fee will be billed to your insurance, or you may pre-pay through our discount program.

Injection Services

- Provided by our nursing staff when ordered by a physician or nurse practitioner.
- Allergy injections - serum can be sent from an allergist or physician office and administered in the clinic.
- Flu Shots - available during flu season.

Travel Vaccines & Adult Immunizations
